APR = Annual Percentage Rate. Rates are subject to change without notice. Each application is evaluated on an individual basis. Loan advances are granted based upon the applicant(s) credit history, ability to repay, purpose, stability and collateral. Loan advances are not granted based upon method of repayment. On variable rate loans, the Annual Percentage Rate (APR) for new advances and existing balances is based on an index which is the highest Prime Rate as published in the Money Rates section of *The Wall Street Journal* on the 15th day of the month for the preceding three months and is subject to change monthly. The index figure is posted in the lobby of each credit union office.
